

## Mycoplasma Contamination Policy

---

Dear Valued Customer,

Any cell line not produced in our facility must be tested for mycoplasma contamination prior to processing at our facility<sup>1</sup>. Cell lines must be certified mycoplasma negative via testing by an independent vendor such as Bionique Testing Laboratories<sup>2</sup> or an equivalent testing service. Green Mountain Antibodies will culture and ship samples to be tested at the customers' expense. For more information please contact us at 802-865-6230 or visit us at [www.greenmoab.com](http://www.greenmoab.com).
